

# Governor Thompson State Park

## Recreation Alternative Concepts

	<u>Concept 1</u>	<u>Concept 2</u>	<u>Concept 3</u>	<u>Concept 4</u>
<b>General Concept</b>	Primitive outdoor experiences	Primitive but easier outdoor experiences.	More developments, services and comforts within the outdoors	Convenience and comfort in the outdoors
<b>Visitor Experience</b>	Visitors expected to be self-reliant	Visitors would be encouraged to explore areas of the park in primarily a non-motorized mode	Visitor attractions would be convenient and easily accessible	Comfort is emphasized
<b>Relationship to Natural Resources</b>	Recreation is strongly tied to natural resources	Visitors, campsites, and trails would be managed to ensure resource protection and public safety	Recreation is still resource-based, but more as a location advantage.	Recreation is related to specific activities, not the resources
<b>Vehicular Access</b>	Roads lead to park office and boat landing only. All other access is pedestrian only	Roads go to office, boat landing, vicinity of recreation areas	Roads lead to most use areas	Roads to all features, little walking required
<b>Camping Style</b>	Primitive hike-in or canoe-in	Varied - hike/canoe-in, yurt camping, primitive tent/trailer camping	Full range of camping from primitive to more modern tent/trailer campground	Ranges from primitive to full service convenience camping emphasized
<b>Trail Development</b>	Lightly developed	More developed, groomed	Trails well developed, always groomed	Some trails paved or surfaced, others well developed
